### **Ross Harding**

Blending the grit of rock with the soul of the blues, Ross channels the ghosts of the Delta through a modern, darkly cinematic sound. Described as possessing “a remarkable dark and moving depth – cracked, soulful and incredibly emotive”, Ross has been featured in Blues Rock Review, Kerrang!, and other international publications.

Having performed at major festivals such as The Great British Rhythm & Blues Festival, and collaborated with global brands like Coca-Cola and The Reach For A Dream Foundation, he has carved out a reputation as one of the most authentic new voices in modern blues.
